

Clarification Request Nr. 7 – 27th September 2019

Q1. The document return register makes reference to C01, C02 and C03 – there are no questions in PQQ1/PQQ1B with this number – please advise?

A1. Appendices 3,4 and 5 are not required. See PQQ1 REV 5 which has now been uploaded.

Q2. The table below asks us to fill in the details for other disciplines that are not completing a PQQ e.g. Piling, Structural Steel and Civil Engineering – later on we are also asked to provide PI Insurance for these disciplines. Can you confirm they are not required at this stage?

A2. Confirmed not required at this stage.

Q3. The online space for submitting the PQQ does not allow for the PQQ to be submitted. Can this function be added?

A3. Hard copies to be returned. See Clarification Nr. 2.

Q4. Please advise what HVACR accreditation is in the table below or if an equal approved/equivalent e.g. SNIPEF will be acceptable?

A4. BESA Approval is acceptable. SNIPEF is not.

Request for Clarification Nr. 8 – 27th September 2019

Q. Can you please confirm that SNIPEF is an acceptable accreditation for the mechanical contractor ref PierPont Building 1 and Fort George Building 2?

A. BESA is acceptable. SNIPEF is not.

Request for Clarification Nr. 9 – 30th September 2019

Q. Re: Catalyst Fort George Building 2

Further to your response to question Q3C under Clarification Request Nr 3 – 16th September 2019 we note that the references to Appendix 3, 4 & 5 are still included in Section F of PQQ Rev 4. We understand that we are to disregard this as that are not required to be submitted. Can you please confirm that this is correct?

A. PQQ 1 REV 5 has been uploaded which confirms that Appendices 3,4 and 5 are not required.

Request for Clarification Nr. 10 – 30th September 2019

Q. Clarification Request:

Can you please advise what type of piling will be required on the project?

A. It is likely that piling will be bored but details will be included in the ITT documentation when issued.

Request for Clarification Nr. 11 – 1st October 2019

Q. I have a query regarding the HVACR accreditation required by the mechanical contractor on each PQQ.

This is not an accreditation that I am familiar with. In similar PQQs we are asked to provide our SNIPEF accreditations, sometimes in conjunction with GASsafe and OFTEC.

Can you please confirm that SNIPEF is an acceptable accreditation for the mechanical contractor in reference to PierPont Plaza and Fort George Building?

A. BESA is acceptable. SNIPEF is not.

Clarification Request Nr. 12 – 2nd October 2019

Q. Could you also confirm if Structural Steelwork & Piling Subcontractors are to be named, we feel this would restrict the opportunity to provide you with value for money if the Economic Operator was confined to using only one subcontractor during tender stage?

A. It is not necessary to name Structural Steelwork and piling subcontractors.
